That Taylor needs to be seen on a regular basis by a Rheumatologist and he

needs to be on a constant dose of steroids cause he could develop oral cancer. Taylor has been inflicted with mental and emotional distress and physical pain, mental pain and suffering of both extremely fearful and worried that as long as wellpath medical continues to act with negligence, deliberate indifference to his serious medical need he will contract cancer cause they are not adhering unto his medical treatment rapidly and having knowledge of the seriousness of such condition and the outcome Taylor is forced to still place sick-calls in and seen on a basis during nurse sick call when this matter shall be routinely and Taylor seen on a urgent care basis. Taylor states DR. Nguyen Actions was an intentional infliction of emotional distress cause with DR. Cullen has agreed that DR. Nguyen shall have seen Taylor shortly after the results came back. Taylor states he spoke with DR. Nguyen has stated there's not much he can do for Taylor but make a recommendation that Taylor be seen by a Rheumatologist on a regular basis. Taylor is not prescribed any steroids to help aid this disease and DR. Nguyen has neglected Taylor to such medication cause he states he is not sure which steroid to place Taylor on but he did inject Taylor Gums with Steroids and acknowledged the severity of Taylor's condition. Taylor medical needs are sufficiently serious cause it's been said that Lichen planus is none curable and in fact does cause cancer. Taylor states that Metro Government is the moving force behind wellpath medical and wellpath medical is under Metro Government and having acted under the color of state law Taylor believes that the Policies of medical needs and treatment for pre-trial detainee's have been violated and believe there a policy in place that allows wellpath Medical to act with such Deliberate Indifference and he believes Metro Government shall be held liable cause Taylor has suffered a violation of his federal Rights under both the Eighth and Fourteenth Amendment.

Horng (Brian) Nguyen and shortly after leaving the medical unit at DCSO-DO Taylor stitch came undone and his mouth began to bleed and a blood clot formed inside Taylor's mouth, Taylor notified the officer whom immediately called medical and medical responded by telling the officer to tell Taylor to put in a sick call. Taylor has since been in pain and his lip has not healed accurately just as his gums has not which is a result from the same instances after seeing DR. Nguyen and being stitched. DR. Nguyen fails to provide adequate medical treatment and care and is highly aware of the seriousness of Taylor's condition. Taylor has been told his mouth needs urgent care and attention by DR. Nguyen but he has failed to provide such treatment. DR. Nguyen is aware that Taylor has not been responsive unto the Fluocinonide cream that was prescribed to Taylor by DR. Nguyen prior to the biopsy and diagnosis and DR. Nguyen has failed to provide any other course of treatment. Taylor states that he suffers from pain mentally, emotionally and physically cause his mouth is in constant pain and he suffers mental and emotional pain in fear of his condition becoming cancer as it is already cancerous?
